Description of fiscal impact:

SB 111 adds clarifying language to 15-24-3004, MCA. Wind generation facilities are currently required to pay up to a 0.5% impact fee on the total cost of the wind project for each year of the first three years once construction commences. This bill clarifies who shall pay the fee and how often the fee is to be paid. These fees are assessed by and distributed to local governments. There is no anticipated fiscal impact to the state.
